## Description of the contract

The BIOVITA company offers a wide range of decorative grits. Full colors can be checked at: [www.biovita.com.pl](http://www.biovita.com.pl) Grits are sold in 20 kg bags and in 1000 kg Big-Bags. BIOVITA produces and packs a wide range of garden soil, peat, peat substrates, bark, wood chips, decorative stones, fertilizers, nonwovens, lime, perlite and expanded clay. Since 1997, it has been a dynamically developing company with an established position in the horticulture industry. The production of high-quality substrates for cultivation, expanding the range of products tailored to the requirements of consumers, make Biovita a brand chosen by customers. An extensive distribution network consisting of business partners, wholesalers and sellers helps the company to be close to the customer. Mission of the company: "Biovita products are a good start for your plants, thanks to modern technologies we ensure traditional quality." Therefore, on a daily basis, the company strives to offer customers a wide range of high-quality products available throughout the country. By investing in new technologies, caring for employees and developing the distribution network, we build lasting business relationships based on reliability, responsibility and partnership.
